The "at home" of the Rev. and Mrs. Harry Fay Fister, held on Wednesday evening at the residence of Mr. L. W. Reycroft, corner of Ravine and Gray streets, was largely attended by the many friends of the newly married pair. So far as one might judge from the crowd, it could be said that the larger part of Arlington and Cambridge were there to extend congratulations. Indeed, the number present was so large that we do not attempt to make individual mention. The spacious residence of Mr. Reycroft was brilliantly illuminated, while the rooms were tastefully decorated with autumn leaves. Mrs. Fister, gowned in her wedding dress, received in a charming and graceful way the many who extended her their best wishes and warmest congratulations. And the Rev. Mr. Fister, recognizing "how much the wife is dearer than the bride," pleasantly and cordially responded to all that heart and soul extended him and his on Weduesday evening. The ushers, Mr. Arthur Bascom of East Boston and Mr. L. R. Russell of Arlington, were exceedingly happy in the pleasant offices they so gracefully performed. Those who served at the refreshment table were the following well known ladies gin, Ethel Butterfield, Helen Bott, Helen Kimball, Lottie Brook and Miss FREE! Woodbury. Miss Grace Gage poured the coffee. The wedding presents were displayed at the home of Mr. and Mrs. Pister, immediately adjoining that of Mr. Reycroft, and much were they admired, both on account of their choice selection and intrinsic value. A very noticeable feature of this first "at home" all the churches and the town's people, and by so many from Cambridge, the former home of Mrs. Fister. Mr. Fister as a pastor has a strong and an affectionate hold upon his own church people, so naturally enough the Universalists turned out en masse to give him and Mrs. Fister the greeting they so richly deserve.

> While it is always pleasant to be received by one's own, it is especially pleasant to be recognized and received by those belonging to another fold. Mr. and Mrs. Fister were received on Wednesday evening by all Arlington, and this is just as it should be, for our reverend friend has made himself one of Arlington, in his ministry to his own Fister he becomes a double attachment to every enterprise that has for its object the welfare of his and her adopted town. The Enterprise extends its greetings and best wishes to both pastor and wife for the favorable and promising auspices under which they set up their household gods in their pleasant home on one of the most attractive streets in Arlington. May the enjoyable and suggestive "at home" on Wednesday evening prove the forerunner and prophecy of the at home of all their future.

An interesting and instructive meeting of the Woman's Foreign Missionary Society of 'the Boston North Baptist Association was held on Tuesday in the Baptist church. Mrs. S. G. Mann of Malden, secretary of the general association, presided. Mrs. Mann, upon calling the meeting to order, gave a pleasant address of welcome, in which she briefly stated the object of the meeting. Twenty-five churches were represented. The following music was rendered during the day, with Miss Loring of Newton Highlands as organist. Mrs. Coleman of Arlington sung a selection entitled "The Unseen Kingdom," by Gerald Lane; "Offertory," by E. Bateste, rendered by Miss Loring; "Serenade," by Gounod, Miss Loring; grand chorus, by E. Lemaigre. Miss Loring opened the exerises by rendering "Canonin Octave," by S. B. Whitney, after which were scripture reading and prayer by Mrs. J. P. Wyman of Arlington, president of the Arlington branch of the association. A paper on "How to Give" was read by Mrs. A. J. Gordon of Bos ton. Miss Dewing of Salem read an interesting paper upon the promising outlook of the association. Mrs. Waterbury, secretary of the B. F. M. S., talked on "Methods of the Work." Mrs. Deering of Japan held the closest attention of her audience by her paper on "Missions." The entire day was replete with interest. All the papers read were instructive, and the discussions which followed were timely and well put. The music was rendered in a delightful way, Miss Loring presiding at the organ with that ease and grace which add so much to any and all musical rendition. The meeting was a

Mr. Chase went to San Francisco, Cal., in 1874, and resided there 24 years, coming home about once in seven years. He entered the service of the fire department in that city, being on the fire patrol, and during his service he was badly injured at a fire, his whole left side being badly crushed. Afterward he worked eight years in the grocery business, but finally gave that up, and for a number of years was in the restaurant business. On March 17, 1898, he arrived in Arlington, this being shortly after his father's death, and has resided here since. Mr. Chase was of of Mrs. George W. Austin of Brattle quiet disposition, and liked by all who knew him. He was the last one of the family, his brother dying in March of 1897, and his father on Sept. 23d of the same year.

> All through the sickness of Mr. Chase he has had the best of care from his sister-in-law and his niece and nephew. Rev. Mr. Bushnell has officiated at the three funerals.

WHY IS IT?

We purposely put the heading of this editorial in interrogative form, for we have a question-an important one, as we think-to ask of the town of Arlington. Standing as we, do upon the threshold of the second year of the life of the Enterprise, it is altogether fitting that we ask for an interview with our town's people concerning their public Enterprise should not reasonably expect a fair share of the public patronage? We are sure that the past twelve months have shown our readers that the Enterprise is loyal to every business interest of the town. We have neglected no department of the business welfare of Arlington. We have taken every opportune occasion to say a good word for our roads, our schools, our chnrches, our homes, and indeed of every business and social interest affecting this community. While we have been willing to give our best, we think it not unreasonable that we had hoped and expected public street during the dark hours of a fair return by way of orders through the night. WHAT WE PURPOSE.

the Enterprise shall do more than heretofore for the good of Arlington by noving in the most direct line upon the "enemy's works." We are quite-aware that in every locality of any considerable size that there are combinations and cliques in politics that are subversive to the highest public good; and · Arlington proves no exception to the rule. It is one of the weaknesses belonging to human nature that the public official will too frequently act upon the theory that he has friends to reward and enemies to punish in the bestowal of public patronage. He thinks to for tify himself in patting upon the back those whose votes placed him in office. And then to emphasize this coddling way of doing things, he will oftentimes go out of his way to leave in the cold those who may not be in social and political sympathy with him. Just this is being done in Arlington. An official is or should be the fair and impartial representative of his constituents. He is placed in official position not to act along the line of his own likes or dislikes, but to carry out the will of the people. It is a gross miscarriage of justice that any public servant should so take such advantage of his position that he is willing to subvert the will of the public that he stands ready to use the means placed in his hands to carry out his own selfish desires in the awarding to our subscription list, and so help being done in our goodly town of Arlington, in at least one instance. At the proper time we purpose in a manly way to write more fully of the instance to which we refer. The Enterprise has the right to insist on "fair play"-in- that this issue is not altogether filled up of so attractive a world as ours. And deed it is bound to do all this, if it would with our visit of two days at the White yet there are lots of men and women prove itself worthy of its duties and op. Mountains. THE CURFEW.

While we are not a pronounced believer in the curfew bell, still we a good deal insist that the children should be in at a seasonable hour of the evening, and in bed. It is altogether destructive that the child should be allowed to run the streets after the night has shut down. EDITORIAL NOTES.

We respectfully call the attention of our school board to the following. Under the heading of "Medical and Sanitary Notes" the New York Tribune prints this paragraph, which seems to us to be very practical:

The color of school exercise boards, notwithstanding its great importance, is a consideration which has been strangely neglected—the fact being that from time immemorial it has been a matter of common knowledge, even the custom, so long common with tailors, to charge more for making a black suit of clothes than for any other color, For many years much study has been given the conclusion is that exercise boards used therein should not be black, the white, a dead surface of soft, mellow tint varied in its degree of whiteness to ordinarily be of a clear, sky-blue color

It must be remembered that yesterday was the queen of days. The atmosphere had about it that peculiar and balmy softness so characteristic of the earlier autumn months-so that one felt in that receptive condition which takes in the best of this golden season of the year. As we made our way through Crawford Notch, looking out upon the inspiring scene as viewed from the observation car attached to the train, we became more than enthusiastic. With the mountains massed on each side of you, among uneducated people, that black is and majestically towering heavenward, the worst of colors for the eyes-hence while from base to summit there was to be seen every wariety of tint and color, who, we ask, could have refrained from shouting his loudest and swinging his by experts to schoolroom hygiene, and hat the highest? The mountain sides seemed on fire-look wherever you would, a wonderful wealth of tint and color met the eye. And to add to the picture so bewitchingly and grandly beautiful is the road itself as it makes its serpentine way through the deep gorges of the mountains, with here a cascade coming down from the heights, and there a rivulet, and then the Saco quietly journeying oceanward. A Row at the Show.

The lord mayor's show is an annual theme for the newspapers. Very little can be said about it that has not been said again and again. It costs about £2,000, the banquet from £2,000 to £3,-000. The show has sunk during the century to borrowing some of its splendors from the "property man." Thereby hangs a tale.

A certain lord mayor hired from the Surrey theater two suits of armor. brass and steel, with a couple of supers to go inside them. The manager of the Surrey stipulated, by the way, that the steel armor should not be used if the day be a wet or a foggy one. After the show the men in armor were taken to the Guildhall, remaining there several hours without food. No one, it appears, was able to rid them of their ironmongery.

Wine was given them, and the man of brass became intoxicated. The bystanders, thinking if he fell about that he would injure others as well as himself, tried to eject him. But he showed fight, and, to add to their further dismay, his companion in arms joined him. They were overcome at last only by sheer weight of numbers. Then the maker of the armor was sent for. He eventually succeeded in freeing the men, who were in danger of being stifled by the weight of their equipment.-Good Words.

Chicago in 1893. Mr. Trask, the agreetage," held the ribbons, so we knew that we were safe. Beside, we had the most agreeable company. First, there was Mrs. Caroline H. Hitchcock of Cambridge, a lover of nature and of Emerson and John Burroughs, and Miss Mariana Smith of Boston, and Mr. and Mrs. Henry W. Bullard of 29 Academy street, Arlington; so that our immediate social surroundings were in happy keeping with the intensely picturesque views to be had all along that stretch of ride through the Notch. We drove by the Crawford House, where the grand old mountains come almost in touch with the hotel, then past Webster Mountain and Willard Mountain, on to to the very spot where the Willey family, seven in number, met their death by that deadly landslide from the Willard Mountain somewhere in the 50s. No writer, however skilled, can describe the Crawford Notch as seen at this season of the year. The charming picture it reveals must be seen to be appreciated. The day to us has been both poem and painting, filled with sentiment and worof which we will write later. > The following remarkable calculation on the length of time which it would take a person to count 1,000,000,000 recently appeared in an issue of The English Lathmetician:

> What is a billion? The reply is very simple. In England a billion is a milno man is able to count it. You will count 160 or 170 a minute. But let us suppose that you go up as high as 200 a minute, hour after hour. At that rate you would count 12,000 an hour; 288,-000 a day, or 105,120,000 in a year. Let us suppose now that Adam, at the beginning of his existence, had begun to count, had continued to do so and was counting still. Had such a thing been possible he would not yet have finished

> the task of counting a billion?
>
> To count a billion would require a person to count 200 a minute for a period of 9,512 years, 542 days, 5 hours and 20 minutes, providing he should count continuously. But suppose we allow the counter 12 hours daily for rest, eating and sleeping. Then he would need 18,025 years, 319 days, 10 hours and 45 minutes in which to complele the task!

The Saleslady's Romance.

"Yes, I'm in the necktie department now. I like it ever so much better than selling ribbons. Men are so much easier to suit than women. All you've got to do is smile at them and you can sell them any old thing. The women will finger over the whole stock and not buy 10 cents' worth-just as if a lady had nothing to do but show goods. Besides, I don't like the floorwalker in the ribbon department. The one we've got now is lovely. His name is Perkins-Horatio Perkins-and he's just as swell.

"And, say, can you keep a secret? He's-you won't tell a soul?-well, he's in love with me. No, he hasn't said so yet, but I can tell by the way he looks at me-never takes his eyes off me from morning till night. He's jealous, too, and that's a sure sign. You ought to've seen him yesterday when George came in to invite me to the bill poster's ball. George-he's my old steady, you know-well, he and I was standing there talking when Horatio-I mean Mr. Perkins-came along. He gave me an awful fierce look, but I never let on that I seen him, but just kept right on talking.

"Then he stepped right up to me and says, his voice quivering with suppressed emotion, he says: 'Miss Robinson,' he says, 'are you aware that there are half a dozen customers waiting for you?

"I know he only said that so as not to betray his real feelings, because when I turned around there wasn't any six customers there at all. There was only four."-New York Journal.

Walking Up States. A physician who declared that few people knew how to walk up stairs properly was asked to describe how it should be done. He said: "Usually a person will tread on the ball of the foot in taking each step. This is very tiresome and wearing on the muscles, as it throws the entire suspended weight of the body on the muscles of the legs and feet. You should in walking or climbing stairs seek for the most equal distribution of the body's weight

possible. "In walking up stairs your feet should be placed squarely down on the step, heel and all, and then the work should be performed slowly and deliberately. In this way there is no strain upon any particular muscle, but each one is doing its duty in a natural manner. The woman who goes up stairs with a spring is no philosopher, or at least she is not making a proper use of her reasoning faculties.

"The habit, too, of bending over half double when ascending a flight of stairs is exceeding reprehensible. In any exertion of this kind, when the heart is naturally excited to a more rapid action, it is desirable that the lungs should have full play. The crouching position interferes with their action, the blood is imperfectly aerated, and there is trouble at once. Give the lungs a chance to do their work everywhere and at all times."-New York Sun.

Why There Was No Room.

When he was a young man, Senator Hale of Maine, like many young men who have later on in life made their mark in the world, was not without that egotism which is said to be an element of success.

On one occasion Mr. Hale was riding in an old fashioned stage coach with Senator and Mrs. Frye. The only other passenger was an Irish woman past middle life, rather comely of face, who wore enormous hoops, fashionable at that period. To amuse his fellow passengers Mr. Hale pretended to be much enamored of Biddy and would sidle up close to her as if he were about to put his arms about her, look unutterable things at her and entertained himself and his companions at the good natured creature's expense. Finally at one of the stations a man put his head in the door and asked if there was any room to be had inside the coach.

"No," said Mr. Hale. "All the seats are taken." Then turning to the Irish woman and looking into her eyes with great tenderness he said:

"There isn't any room in here, is there? We don't want any one else in here, do we?"

"No," said Biddy, with a delightful brogue. "My hoops are pretty large, and I see you feel pretty large, and there is no room here."-Detroit Free

Note the Change.

In March, 1815, the Paris Moniteur announced the expected return of Emperor Napoleon from Elba. The first announcement of the Moniteur was far from polite, but as the little Corsican approached Paris a gradua change took place in its tone:

"The cannibal has left his den." "The Corsican wolf has landed in the bay of San Juan."

"The tiger has arrived at Gay." "The wretch spent the night at

"The tyrant has arrived at Lyons." "The usurper has been seen within 50 miles of Paris. "Bonaparte is advancing with great

rapidity, but he will not put his foot inside the walls of Paris. "Tomorrow Napoleon will be at our gates."

"The emperor has arrived at Fontainebleau.' "His imperial majesty Napoleon en tered Paris yesterday surrounded by

his loyal subjects."

Nansen and His Pole. When Dr. Nansen visited Leeds, soon after his north pole expedition, a very amusing incident was witnessed. A large crowd stood outside the station to welcome him, two of his most ardent admirers being a couple of old men who kept waving their sticks and shouting themselves hoarse. When the celebrated explorer had passed in his carriage, there followed in his wake a wagon, dragged by horses, bearing a long iron pole which belonged to an electric tramway company. Directly the old men saw it the following con-

versation took place: "Well, I'll be blowed, Bill, he's brown

t'pole back wi him!" said one. "Aye," said the other, "and we t'only two at's noticed it. They're all running after t'carriage, sitha. They're that ignorant-well, they can't tell t'north pole when they sees it."-London Answers.

Frost the Windows. So many people in towns have to

live in flathouses or houses in which the back windows are in such close proximity to those of their neighbors that a simple method of rendering the tion. glass opaque, but not excluding the light, may be useful. The frosted ap-pearance of ground glass may be nearly imitated by gently dabbing the glass over with a paint brush dipped in white paint or any other oil color. The paint should be thin and but little color taken up at one time on the end of the bristles. When applied with a light and even touch, the resemblance to frosted glass is considerable.
